Rev. John I. Jenkins, C.S.C.
President of the University
of Notre Dame

The University of Notre Dame was founded in November 1842 by Rev. Edward F. Sorin, C.S.C., a priest of the Congregation of Holy Cross, a French missionary order. It is located adjacent to South Bend, Indiana, the center of a metropolitan area with a population of more than 315,000. Chartered by the state of Indiana in 1844, the University was governed by the Holy Cross priests until 1967, when governance was transferred to a two-tiered, mixed board of lay and religious Trustees and Fellows.

Notre Dame has grown from the vision of Father Sorin, who sought to establish a great Catholic university in America, and has remained faithful to both its religious and intellectual traditions. Today, we seek to be an enlightening force for a world deeply in need. Our Departments of Theology and Philosophy are regarded as among the finest in the world while faculty in all departments participate in our mission to ensure that Notre Dame's Catholic character informs all of our endeavors. From legal scholars who study civil rights and religious liberty, to scientists and engineers who investigate environmental protection, to sociologists who examine religious and ethical practices, Notre Dame continues to be a place where the Church does its thinking.

One of America's leading undergraduate teaching institutions, Notre Dame also has been at the forefront in research and scholarship. The aerodynamics of glider flight, the transmission of wireless messages, and the formulae for synthetic rubber were pioneered at the University. Today researchers are achieving breakthroughs in astrophysics, radiation chemistry, environmental sciences, tropical disease transmission, peace studies, cancer, robotics, and nanoelectronics.

Notre Dame always has been heavily residential, with about three in four undergraduates living on campus. Students come to Notre Dame to learn not only how to think but also how to live, and often the experiences alumni carry from residence hall communities at Notre Dame remain vivid over a lifetime. The University always has attracted scholars who are interested in teaching and scholarship, men and women who know that a Notre Dame education is more than what is taught in classrooms and laboratories.

Notre Dame has a unique spirit. It is traditional, yet open to change. It is dedicated to religious belief no less than to scientific knowledge. It has always stood for values in a world of facts. It has kept faith with Father Sorin's vision.

The Graduate School

Established in 1918, the Graduate School administers master's and doctoral programs in the Colleges of Arts and Letters, Engineering, and Science and in the Keough School of Global Affairs, and doctoral programs in the Mendoza College of Business. It embraces 31 doctoral programs, 16 terminal master's degree programs, and nine professional master's degree programs in and among 32 University departments, institutes, and programs. Of the approximately 2,600 degree-seeking students, 94 percent are full-time, 63 percent are pursuing a

doctorate, 44 percent are women, and 34 percent are international students. Among U.S. students, 22 percent are from underrepresented groups. Prestigious multi-year fellowships are awarded to the top 10 percent of each incoming class. Approximately 97 percent of students in the Graduate School—both doctoral and non-professional master's—receive full-tuition scholarships. Ninety-seven percent of recent graduates report that their current job aligns with their career goals.

Keough School of Global Affairs

Opening its doors in Jenkins Nanovic Halls in August 2017, the Donald R. Keough School of Global Affairs advances Notre Dame's mission through its focus on integral human development—a holistic model for human flourishing and human dignity. The Keough School educates students to approach global challenges from a multidisciplinary perspective, combining academic disciplines to effectively address today's issues through work in government, nongovernmental and

civil society organizations, and the private sector. An office in Washington, D.C., enables the school to expand its presence in the global policy arena. The school offers academic programs at the doctoral, master's, and undergraduate levels, including a new Bachelor of Arts in global affairs. The school's nine institutes and centers offer academic research and internship programs, travel grants and fellowships, and language study opportunities around the globe.

The Law School

Founded in 1869, Notre Dame Law School is the oldest Catholic law school in the United States. It offers a broad array of courses and experiential learning programs. Its diverse faculty is especially highly regarded in the areas of constitutional law, human rights, and law and religion. International programs include the Notre Dame London Law Program as well as

exchange programs in nine other countries. The Law School operates five legal clinics, including the Exoneration Justice Clinic and Religious Liberty Clinic, where students work on real cases under the close supervision of experienced faculty members. Post-J.D. offerings include LL.M. and J.S.D. programs.

Research

At Notre Dame, research awards have paved the way for new discoveries, unlocked knowledge, and improved technologies. Notre Dame Research (NDR) is committed to supporting a culture of research, scholarship, and creative endeavor throughout campus, in order to be a repository for knowledge and a powerful means for doing good in the world.

In addition, NDR supports and encourages innovation in more than 30 world-class core facilities and resources, as well as in a number of key areas of research, including cancer, environmental change, global health, and many more.

Student Life

Notre Dame is one of a handful of truly international universities, with a student body drawn from all 50 states and more than 1,700 international students from more than 100 countries. About 74 percent of the undergraduates and 14 percent of advanced students live on campus, and more than 80 percent are active in service learning and community volunteer activities. There are no social fraternities or sororities at Notre Dame—the residence halls are the focus of social, religious, and intramural athletic activities.

Achievements

In laboratories, studios, theaters, libraries, and institutes on campus and around the world, Notre Dame students are engaged in a wide array of research, scholarly, and creative projects. They are selected to the leading academic honor societies and have received such prestigious awards as Rhodes, Fulbright, Marshall, and Truman scholarships and fellowships from the Goldwater, Mellon, and National Science Foundations.

Student Activities

The Student Activities Office provides the environment and resources for undergraduate and graduate students to create social, cultural, intellectual, and recreational events and programs. With more than 500 clubs and organizations, students have nearly endless opportunities to find their niche and community to

make Notre Dame feel like home and to advance their development as a student and professional. Prominent groups include Student Union Board, Class Councils, Hall Presidents' Council, Graduate Student Government, MBA Association, and the Student Bar Association.

RACLIN MURPHY MUSEUM OF ART

The Raclin Murphy Museum of Art, formerly the Snite Museum of Art, will open in late November 2023 with a new 70,000-square-foot facility including galleries, a café, retail space, a chapel, teaching spaces, a teaching gallery, and an object study room. The new museum is located on the south side of campus by the Charles B. Hayes Family Sculpture Park, adding to the University's growing arts district and serving as a public gateway to the University.

The museum's collections are among the most significant of academic museums in the country, with holdings

of European masterworks, the Marten collection of decorative arts, works on paper, sculpture, African art, art from the Indigenous Americas, and Olmec and Mesoamerican art. The Raclin Murphy Museum will also unveil new contemporary acquisitions that complement the institution's renowned historical and global collection.

Nearly 11,000 K-12 students and 12,000 Notre Dame students visited the Snite Museum of Art each year, with 91 percent of the 2022 graduating class stating that they had used the museum for a class, research project, or program.

Finances

Notre Dame is one of fewer than 60 colleges nationally committed to meeting the full demonstrated financial need of their undergraduate students for all four years. In the 2023–24 academic year, undergraduates received more than \$200 million in financial aid in the form of endowment-generated, need-based scholarships that do not require repayment. Nearly 70 percent of students received some type of financial aid. The median need-based scholarship offered to first-year students including University, federal Pell, and supplemental grants was \$56,000.

DEVELOPMENT

The University has had a successful development program since it established a formal fundraising office in 1947.

In 2022-23, the development office raised nearly \$493 million in cash gifts to the University. Of this total, Notre Dame's alumni contributed more than \$276 million to their alma mater; their level of participation is among the best in American higher education. Other important sources of gift income include foundations, corporations, and non-alumni parents and friends. For information on support programs, contact Louis M.
